

Race Relations-

Carol Berkley.

MARCH 26TH. 1946

The work of the Race Relations Committee has been in brief as follows: We have had several interracial discussions at the Jones Highschool. We now send two representatives to every Interracial meeting in Winter Park. We conducted an Interracial Sunday program, which included moving pictures of the Negro Farmer and Negro Colleges. Some of our group attended the Y.W.C.A. conference that was held on the campus. After completing the painting of the dining room tables and chairs at Hungerford school for our Winter Project, we will now plan to concentrate on the Negro county home. We expect to take out books, magazines, plants, pictures, records, and arrange entertainment for them. We have scheduled a state conference to meet April 20th, to discuss "Problems in the Post-war world". We have also planned an inter-highschool conference for the first convenient Saturday in May. We have discussion groups approximately every other meeting, with pertinent topics chosen by the Program committee. We have secured a place on the Planning Council in Orlando, so that we may follow up suggestions made in our interracial discussions constructively. We encourage our members to be well-read on subjects pertaining to the racial question so that they will able to approach any controversy scientifically.

Work done since the beginning of 1946!
