On Monday night, the Directorate approved an amendment allocating \$2500 to the Black Student Union for expenses to be incurred for Black Awareness Week with the stipulation that a referendum be called. In light of the controversy arising concerning this issue on the campus and in the classroom the Black Student Union will make available for any faculty member requesting it, a Black student to attend classes. We feel that this is desirable because the basic problem, as we see it, is the "grossly misinformed or completely uninformed" student body.

If you would like to take advantage of this opportunity - please call the Black Student Union office (Ext. 2208) or Dean A. J. Reddick in the office of Student Affairs.
