W. & L. University,
Lexington Va.
Gentlemen:-

I am just one voter in the
U.S. — a Texan and a Christian.

I read a news-cast of the faculty of
your University adopting a resolution
disagreeing with you on barring
Martin Luther King to address a
religious seminar.

Your notice I do not call him Reverend.
No one is Rev. except God and King is
far removed from that sphere.

I am enclosing a print, which will
show him up for what he is.

FDR started the downfall of our Country
and now Kennedy is finishing it up.

Kennedy could, right now, be taking the
initiative for our Country, but No! He is
out campaigning for his 1964 election.
Our Country can't go hang just so he can
get the votes to spend us dry.

How can mere man think he can make
peace? When Eisenhower would talk about
"durable" and "lasting" peace, I could do
nothing but cringe. No one but God

can bring peace, our Bible tells us so.

Our Country is supposed to be a Christian Nation, why can't we act it?

I am not at all afraid of Russia — Germany is our concern. Remember the image of the Beast in Daniel and Revelation.

The Roman Empire will be reactivated with the Pope ruling, of course. It is in the making now with this "United States of Europe" which also embraces The Common Market. It is all happening right under our noses and yet we allow a Catholic to become President of our Beloved Country.

Our forefathers left Europe to get away from all of that and now we, in our indifference, are allowing all we have built up, to be dumped into their laps again.

Thank you for listening, but investigate that faculty of yours and weed out the Communists in it — you are bound to have some in it.

I am also enclosing some pamphlets to the faculty, too. — under separate cover.

Yours for God and Country
