

President Holt

March 23, 1946

Dr. France

Dr. Brown

Mr. Brown and I have gone over the question of permitting the Negroes to carry on their athletics in Harper-Shepard Field, and for numerous reasons which I will tell you when I see you it seems best to make a hard and fast rule in the future that they cannot play there.

As soon as Winant has taken the place of Stettinius as the American delegate to the Social and Economic Conference, do you wish me to write to him in behalf of your brother?
